MEMORANDUM FOR: AD/OSA

SUBJECT   : Miscellaneous

This memorandum is in the way of a reminder of our discussion of 30 July.

1.   The Far East is stood down until Mr. Rusk returns from Moscow, which is presently estimated at about 10-to-12 days. You must obtain a release from the DCI prior to resumption of flights.

2.   Please procure a 5-to-10 minute edited movie of the carrier launch trials of 5 August. We will show this at the 9 o'clock meeting. Perhaps someone from OSA can be present to describe the activity.

3.   Reconofax: The attached memorandum re our meeting with Dr. McMillan indicates the necessity of getting together with Col. Martin during the week of 5 August. Will you please handle this one as I shall be on leave.

We should find some method of surfacing this with FAA and DOD. In the case of FAA, we can include it with our briefing to Halaby on sonic boom methods. It could conceivably be surfaced to the airlines as an FAA development. I would like a report prepared for the DCI after we have accomplished
